

DLG-certified farm inputs

Lubricants, fuels and additives

**CONTINUOUS
MONITORING**

DLG Certificate 0000

The experts at DLG TestService certify lubricants, fuels and additives according to the product-specific DLG quality standard. In addition to the criteria specified for this effectiveness test, further product properties can be tested and certified. Lubricants, fuels and additives that pass the tests are awarded the DLG quality seal.

All DLG-certified farm inputs are subject to constant monitoring. Consistent product quality is ensured by regular repeat tests or analyses. In addition, samples are taken from the manufacturer or from retailers.

DLG test criteria

Fuels/additives

- Consistent quality
- Fuel consumption
- Cleansing effect
- Avoidance of soiling
- Antimicrobial effect
- Storage stability
- Temperature stability

Lubricants (oils)

- Consistent quality
- Viscosity
- Fuel consumption
- Corrosion test

DLG TestService is one of the leading international testing and certification organisations in the fields of tractors, agricultural technology and farm inputs. The DLG's own testing and evaluation standards are practice-oriented and are developed by neutral commissions. In addition to tests according to DLG standards, extensive testing and certification services for quality assurance, according to national and international standards and regulations, as well as customer-specific tests for research and development purposes complete the range of services. The DLG test marks are well known on the market. They stand for neutral, independently verified product quality. They build trust and form the basis for purchasing decisions made by practitioners. dlg-testservice.com
